Find a Partner

Welcome to the **SELECT for Cities 'match-making' tool**. Here you can find details of organisations wishing to join forces for the submission of a tender in response to our call to design and develop large-scale, city-wide IoE platforms.

Forming a partnership or a consortium can be an effective way to bolster skills and resources to deliver the tender requirements. However, please note SELECT equally welcomes submissions from single organisation applicants.

To start your search for a potential partner, please follow the three simple steps below:

1. Scroll through table below and identify a partner with a complimentary skill set
2. Email us for the contact details of the partner that interests you
3. Reach out to your new contact and begin discussions

If you don't find a 'match' below, please consider adding the details of your own organisation to the table by clicking on the green button directly beneath this text.
